Profile

Backend Developer with 3.5 years of experience building scalable systems using Node.js, Spring Boot, Laravel, and FastAPI. Skilled in SQL/NoSQL databases, Redis caching/queues, and RabbitMQ. Experienced in integrating Stripe, Razorpay, Cashfree, Microsoft Graph API, Zoom, and Calendly across fintech, ed-tech, and enterprise apps. Delivered real-time organizational chat systems and led backend architecture with strong system design and leadership skills.

Experience

SR. SOFTWARE DEVELOPER | MULTIFY SOLUTIONS PVT. LTD.| AUG 2025 – PRESENT

· Gained practical understanding of fintech processes and contributed to backend features aligned with financial domain requirements.
· Integrated CashFree payment gateway into backend services, ensuring seamless and secure transaction flow.

SOFTWARE DEVELOPER| STHANAVE TECHNOLOGIES | AUG 2022 – AUGUST 2025

· Implemented Razorpay payment flows for a CGPSC learning platform, enabling users to securely purchase test-series and lecture packages.
· Integrated Stripe for a metals-exchange project to manage user subscriptions and automated recurring billing.
· Integrated Microsoft Graph API to streamline user management across the organization and support secure, centralized identity operations.
· Designed and developed a complete internal Chat Application. Worked with RabbitMQ in a .NET-based project to build reliable, distributed queue processing pipelines.
· Delivered key backend features with strong ownership, contributing significantly to team performance and earning recognition as a team leader at Sthanave.

Education

DIPLOMA IN COMPUTER SCEINCE & ENGINEERING | AUG 2022 | CSVTU BHILAI
